# Venue

- Sola City Conference ([https://solacity.jp/assets/pdf/en\\_access\\_map.pdf](https://solacity.jp/assets/pdf/en_access_map.pdf))
- 4-6 Kanda-Surugadai, Chiyoda-ku, Tokyo, Japan, 101- 8222

# Infection Control Measures

- Based on the Tokyo Metropolitan Government's basic policy on measures against infectious diseases (\*1), we plan to implement the following measures in cooperation with the venue.
- The content of the measures may change depending on the situation, but we will take sufficient measures.

\*1 <https://www.bousai.metro.tokyo.lg.jp/1009757/1009761.html>

- Organizing staff will wear masks, disinfect hands, and take daily temperature.
- The number of seats will be half of the full capacity and the number of visitors will be limited.
- We will alert visitors to infectious disease countermeasures before and after the event.
- We ask visitors to wear masks, disinfect their hands, and engage in social distancing.
- We will do temperature check at the reception and refuse visitors with fever.
- We ask participants to try to secure physical distance in case of congestion.
- At lunchtime, to avoid congestion at nearby restaurants, we will distribute a lunch box. We ask participants not to talk without a mask while eating.
- For food and drink, we will use a company that has taken measures against infectious diseases approved by the venue.
- The distance between the stage and the audience is long enough (2 meters or more as recommended by the Tokyo Metropolitan Government).
- We disinfect microphones every day, while each room has a disinfectant spray for microphones.

# Keynote Speakers

- Johanna Rothman

People know her as the “Pragmatic Manager.” She offers frank advice—often with a little humor—for your tough problems. She helps leaders and managers see and do reasonable things that work. Equipped with that knowledge, you can decide how to adapt your product development. Author of “Manage it!”, “From Chaos to successful distributed agile teams”, etc.

- Tsuyoshi Ushio

Senior Software Engineer@Azure Functions Team. Focuses on DevOps x Serverless. Contributor of Durable Functions and other OSS repos like Terraform, Apache Helm, Brigade and so on. Ranked the No.1 Speaker at Tech Summit Japan in 2018. Azure Functions Kafka Extensions maintainer.

- TBA

# Target participants

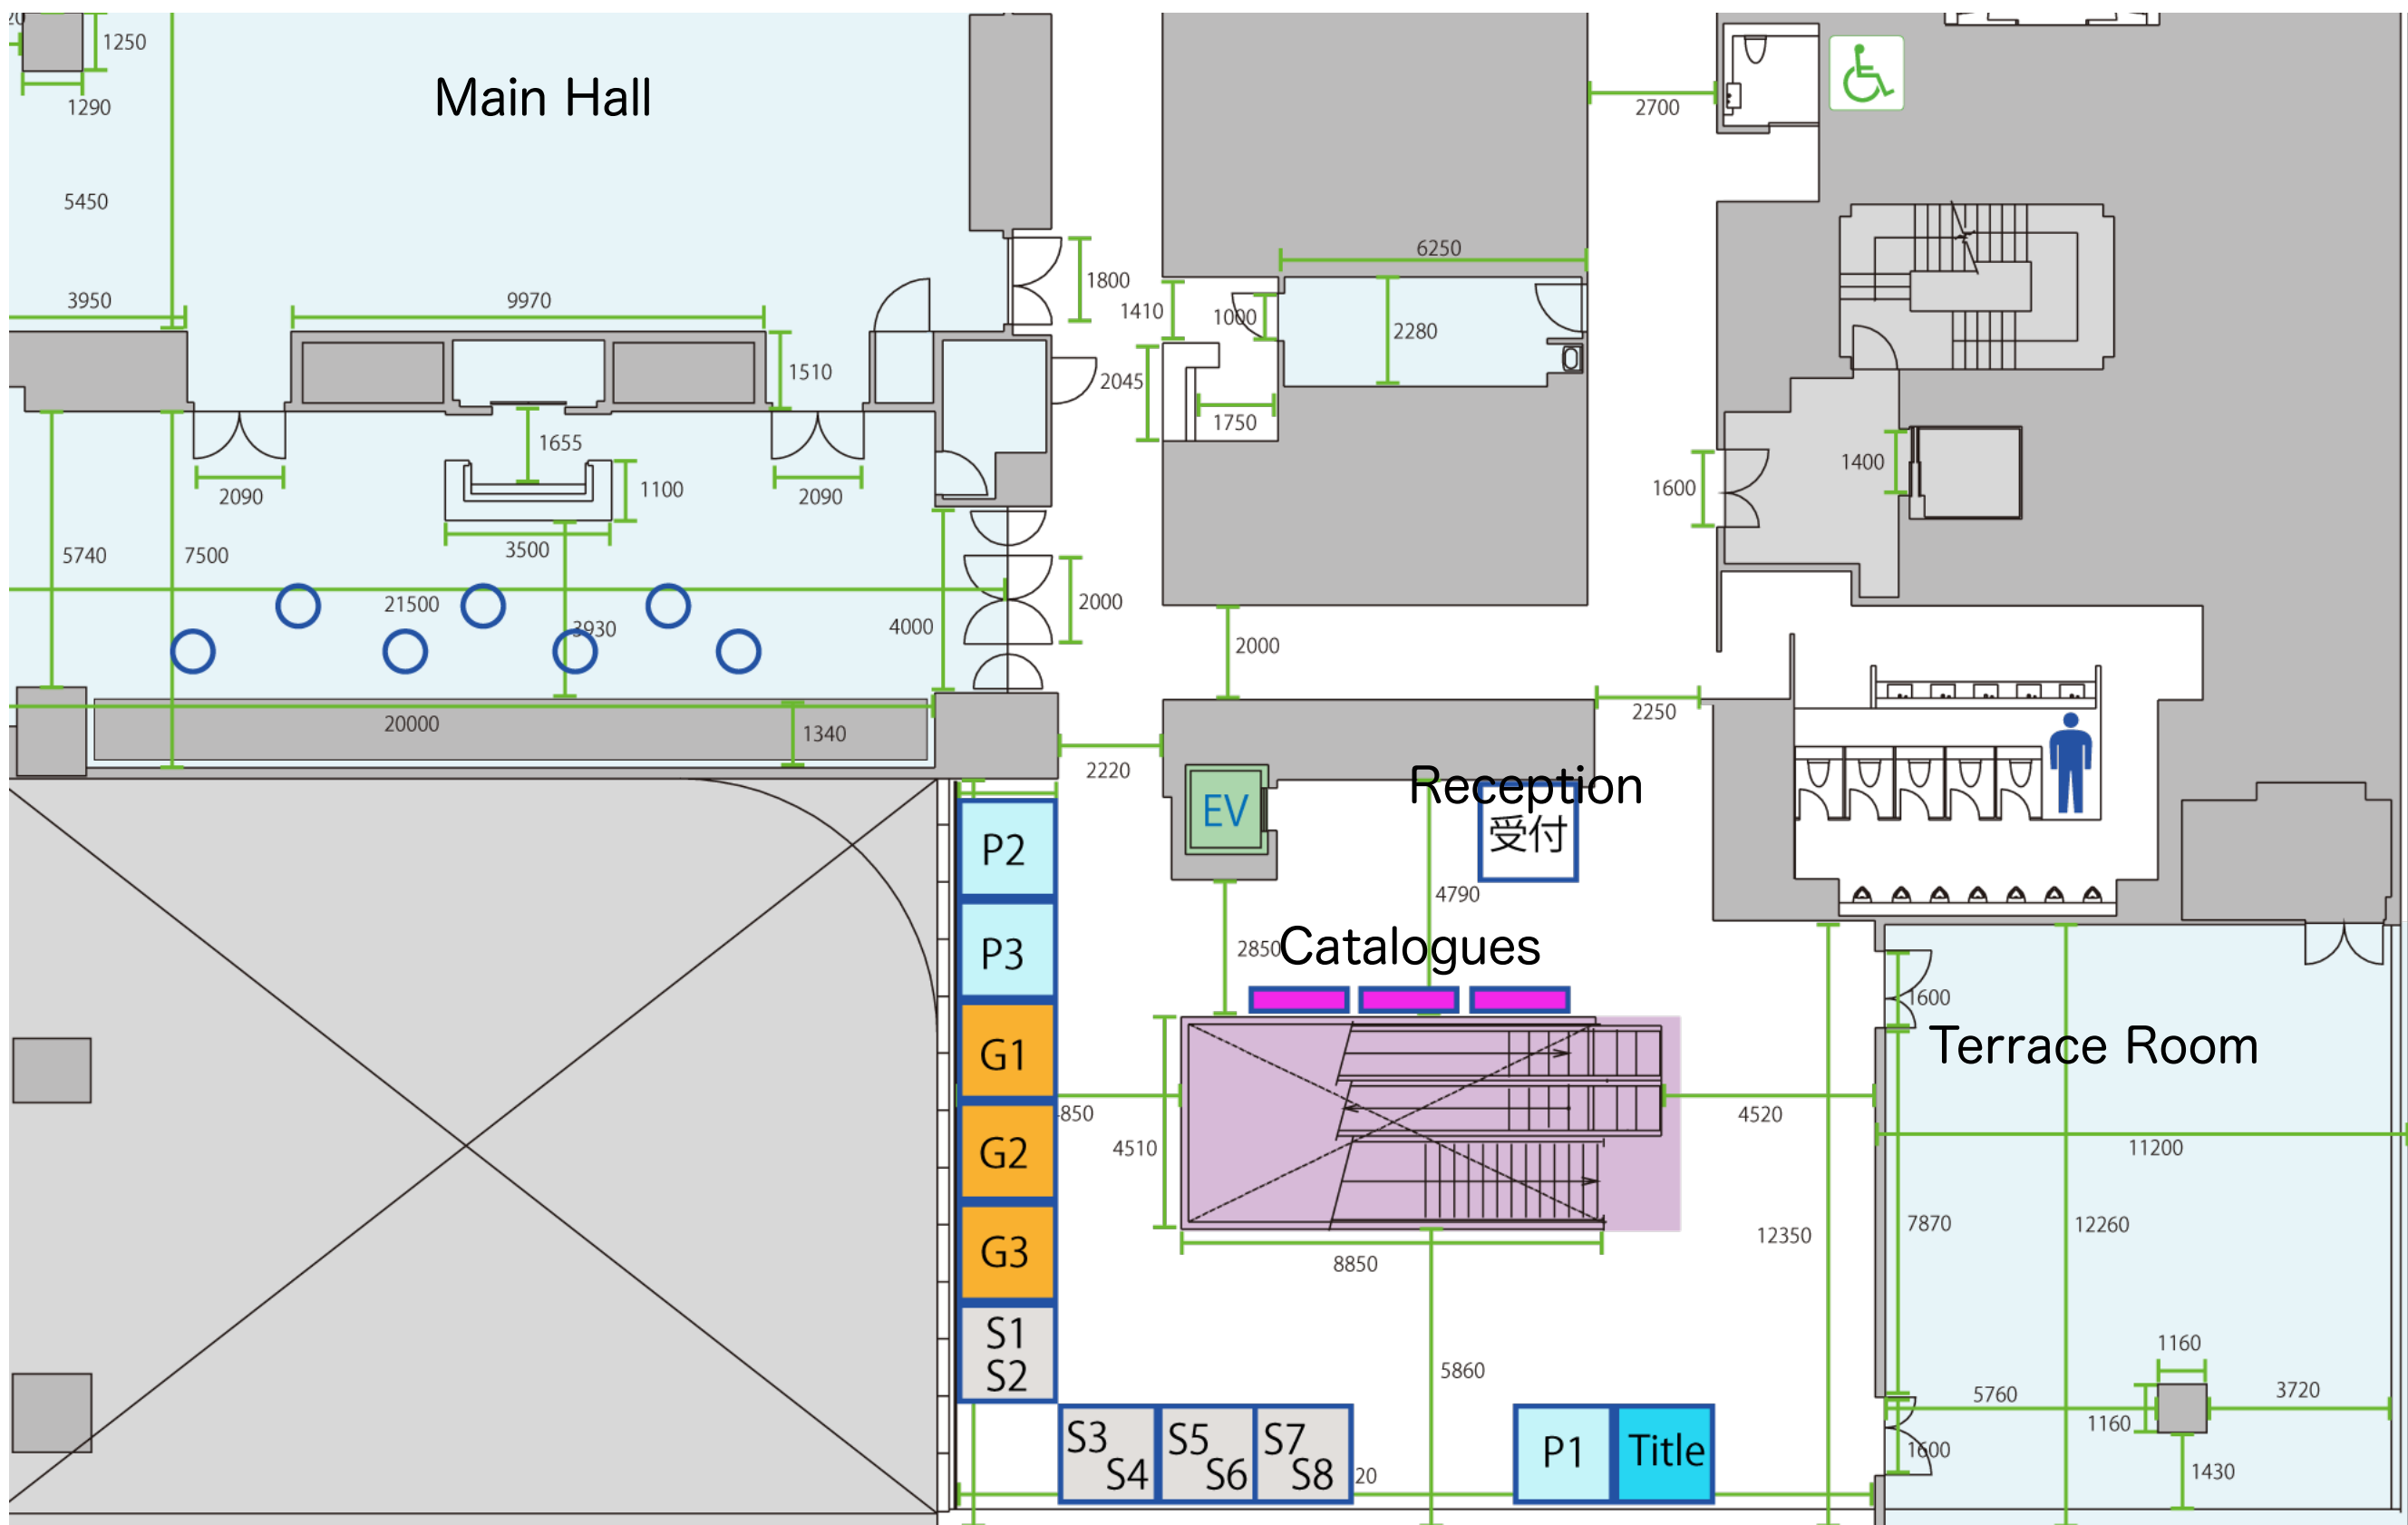

- Directors, managers, developers; all such from companies considering adopting Scrum/Agile or adopting Scrum/Agile.
- Coaches, Consultants; all such who are helping organizations or teams to adopt Scrum/Agile.
